THRILL
SEEKER,
TECH
BUFF.
**PACKED
INTO ONE.**

THE ONLY THING THAT KEEPS
PACE IS YOUR EXCITEMENT.

**WE HAVE PUT IN
THE VERY BEST.
BRING IT OUT.**

IT ATTRACTS.
ESPECIALLY LOOKS.

STATE-OF-THE-ART THRILLS.
WORLD-CLASS TECHNOLOGY.

TECH ON THRILLS.

THE MOST BEAUTIFUL EXPECTATIONS:
THE EXCEEDED ONES.

What drives us?
What makes us tick?
What keeps us alive?
It is the need for thrills.
And the path leading to it needs to be
enthraling, exciting and exhilarating.
So you can live life and not let it just pass by.
Generation after generation we have been enabling it.
And now it comes to you in its most technologically
advanced form.
It speaks to you and fulfils your need for sport.
It is built for thrills and driven by tech.

AERODYNAMICS

Thanks to targeted aerodynamic measures, every BMW boasts excellent air resistance figures. This has a positive impact on efficiency and driving stability, and reduces the level of noise in the interior. This is thanks to sophisticated solutions such as the active air stream kidney grille, the flat underbody cover, the air blades on the rear and the air curtain in the front apron.

ACTIVE AIR STREAM KIDNEY GRILLE

The Active Air Stream Kidney Grille opens and closes the air vents in the radiator grille according to the cooling requirements of the engine and the air conditioning. The movable vents are located behind the kidney grille slats and at the same time reduce air resistance when closed, thereby improving aerodynamics.

STEPTRONIC SPORT TRANSMISSION

The 8-speed Steptronic Sport Transmission offers incredibly sporty gear changes – for comfortable coasting or incredibly dynamic driving. Whether automatic or manual using gearshift paddles or gear lever. In SPORT mode and with the gear lever in the left-hand S/M position, the gear shifts are configured for the best performance.

DRIVING EXPERIENCE CONTROL

The Driving Experience Control offers the driver the choice between the standard COMFORT mode, ECO PRO mode geared towards efficiency, and SPORT mode, which enables even more dynamic driving.

BRAKE ENERGY REGENERATION

With Brake Energy Regeneration, the alternator generates electricity primarily when the driver brakes or takes their foot off the accelerator. Previously unused kinetic energy is thereby transformed into electrical energy and fed into the battery.

INTELLIGENT START/STOP FUNCTION

The Intelligent Auto Start/Stop Function uses data from the navigation system, camera and if it is detected that further travel is imminent (e.g. during a turning manoeuvre), the engine is not automatically switched off when the vehicle stops.

DRIVER ASSISTANCE AND CONNECTIVITY.

BMW ConnectedDrive
So connected, you're free.

BMW VIRTUAL ASSISTANT

'Hello, BMW. Who are you?' Wouldn't it be incredible if your BMW acted like your personal assistant? Communicate in a new and easy way with your vehicle using the BMW Virtual Assistant. It knows you, learns your behaviours to improve every day and helps out whatever the situation. It can explain everything about your vehicle and helps you get better acquainted with your BMW. You can even assign your own personal activation word.

BMW LIVE COCKPIT PROFESSIONAL

The BMW Live Cockpit Professional with navigation function includes a high-quality display network consisting of a high-resolution 10.25" (26 cm) Control Display that can be operated by touch and a fully digital 12.3" (31.2 cm) Instrument Display. The BMW Operating System 7.0 can also be operated via the iDrive Controller.

PARKING ASSISTANT

The Parking Assistant with Rear View Camera can handle the most difficult parking spots with ease. You can go in and out of parking spots with precision due to the system controls the steering while you still have control of the accelerator, gears, and brakes.

LATERAL PARKING AID

The Lateral Parking Aid is a part of the Park Distance Control and gives you an "all-round view" near the vehicle during manoeuvring. In this way, obstacles on the sides of the vehicle are detected and signalled audibly and visually.

REVERSING ASSISTANT

The Reversing Assistant stores the last 50m of the driven path in forward travel up to 35km/h, so that it can be retracted if required and you are relieved of the steering work and can concentrate on monitoring the vehicle environment.

COMFORT AND FUNCTIONALITY.

19 | 20

Folding Headrests for the three rear seats provide a better view through the rear window. They make it much easier for the driver to park and manoeuvre when space is limited, and also provide a better view of the traffic behind.

Ambient Light, including Ambient contour lighting in the front and rear doors, creates a relaxed, cosy lighting atmosphere in the interior. The Welcome Light Carpet illuminates the area in front of the car doors when entering and exiting. Six dimmable light designs in White, Blue, Orange, Bronze, Lilac and Green are available.

The **Acoustic Glazing** on the front windscreen significantly reduces the level of noise for everyone inside the vehicle. It minimises noise created by the outside surroundings and flow of air, as well as by the engine, tyres and windscreen wipers. Music listeners and hands-free device users in particular will appreciate the difference this makes.

The Glass Roof with slide and lift function, including an electric sliding interior roof, anti-trap protection, as well as comfort opening and closing, allows the airflow to be individually regulated to create a pleasant interior climate. The integrated wind deflector prevents draughts from developing in the interior and ensures a lower level of wind noise.

The Adaptive LED Headlights with cornering lights generate a bright and efficient bi-LED light for low and high-beam headlights. The bend lighting and cornering lights with LED technology allow for adaptive light distribution with increased side illumination for city driving. The LED day time running lights and parking lights in the light tubes of the main headlights create a distinctive feature characteristic of a BMW.

The rear lights are made up of individual high-performance LED lighting elements. They have the characteristic, striking BMW L-shape, meaning that the vehicle is clearly recognisable as a BMW even in the dark.

The BMW Individual Exterior Line in Aluminium satinated sets luxurious highlights with the window recess finishers and window surrounds in Silk Matt brushed Aluminium. The B-pillar trims, the exterior mirror frames, foot and base, along with the vertical window guides, come in Black High-Gloss, creating a stylish contrast to these elements.

The BMW Live Cockpit Professional with navigation function includes a high-quality display network consisting of a high-resolution 10.25" (26 cm) Control Display that can be operated by touch and a fully digital 12.3" (31.24 cm) instrument display. The BMW Operating System 7.0 can also be operated via the iDrive Controller.

The **Parking Assistant with Rear View Camera** can handle the most difficult parking spots with ease. You can go in and out of parking spots with precision while the system controls the steering, you still have control of the accelerator, gears, and brakes.

With **BMW Gesture Control**, selected functions can be operated by means of defined hand movements. Simple gestures such as 'swiping' or 'pointing' are identified in the recognition area above the centre console and trigger functions such as accepting or rejecting an incoming telephone call, proceeding or cancelling navigation as well as starting and ending voice recordings.

With **BMW Gesture Control**, certain functions can be operated by means of defined hand movements. For certain operations the system will, for example, recognise gestures such as 'swiping' or 'pointing' for accepting or rejecting an incoming call, or circular motions of the index finger to adjust volume.

The upper part of the instrument panel in Sensatec Black lends the interior of the vehicle a highly exclusive atmosphere. The wear resistant material is finished with attractive double lap seams.

Ambient light, including ambient contour lighting in the front and rear doors, creates a relaxed, cosy lighting atmosphere in the interior. The six dimmable lighting designs also include a dynamic function in four applications. The Welcome Light Carpet illuminates the area in front of the vehicle doors when getting in and out.

The through-loading system includes rear seat backrests that can be divided in a 40:20:40 ratio for the greatest possible flexibility. For example, two passengers can be seated comfortably in the rear, while long objects such as golf bags can be transported at the same time. The two cupholders in the centre armrest are very practical.
